

# REBUILDING I-93 SALEM TO MANCHESTER

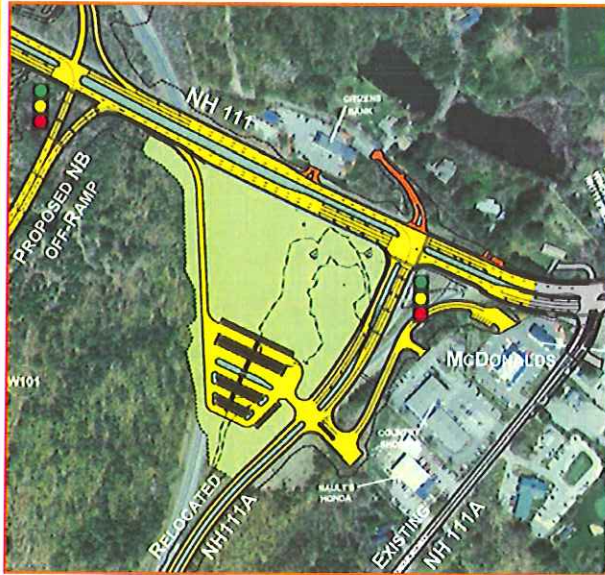

## EXIT 3 PARK AND RIDE

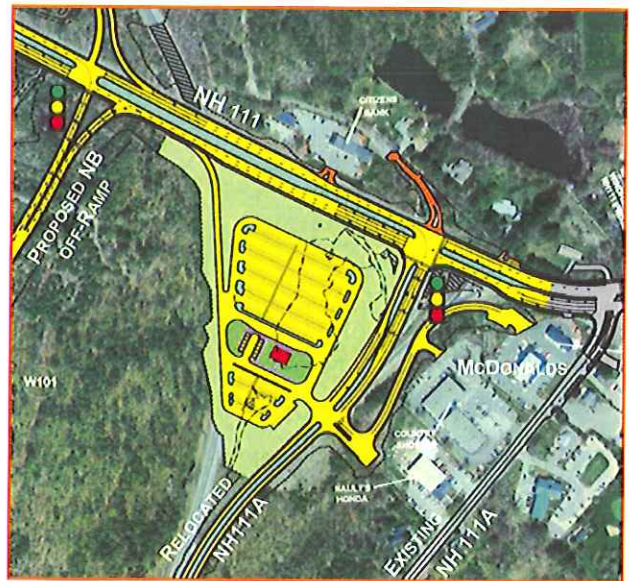

**PROJECT OVERVIEW:** **CONTRACT 10418H** will construct a Park-and-Ride (PNR) facility within the existing State Right-of-Way in the existing northbound on-ramp loop area. Under the final configuration, as shown below right, this will place the PNR adjacent to the proposed NB off-ramp at the intersection of NH Routes 111 and 111A. The project will be constructed in phases. Phase I (partial-build) would include approximately 150 spaces and a bus shelter. Should usage/demand prove sufficient to warrant an expansion, Phase II could construct 300 additional spaces and a full-service bus station.

The PNR design is 50% complete. Because of its location, all roadway construction at Exit 3 must be complete prior to the Park-and-Ride being constructed. Therefore, the project is not anticipated to advertise before 2015, with Phase I construction planned for 2016. This project will complete work at Exit 3.

PROJECT FACT SHEET

**PNR PHASE I - PARTIAL-BUILD**

**PNR PHASE II - FULL-BUILD**

**PHASE I CONSTRUCTION COULD BEGIN IN 2016 ONCE A FUNDING SOURCE IS IDENTIFIED. THIS PROJECT IS NOT CURRENTLY FUNDED.**

**PROJECT FACTS**

**CONTRACT: 10418H**

	Phase I	Phase II	Total
Est. Advertised Date:	2015	TBD	
Est. Start Construction Date:	2016	TBD	
Est. Construction Cost:	\$2.0M	\$3.0M	\$5.0M

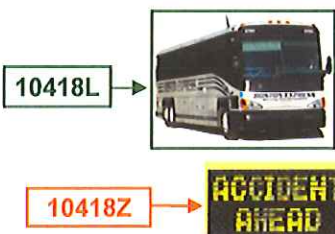

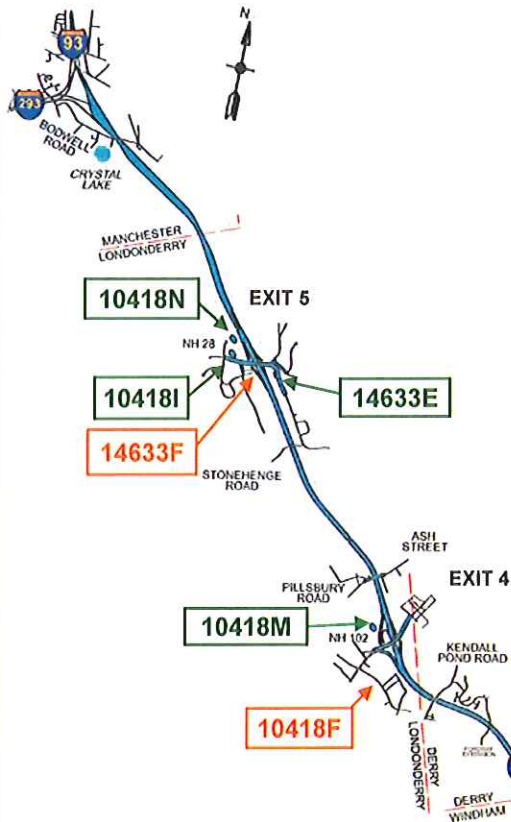

Created: 10-17-2012
